

INTRODUCTION

I. What is a computer

Computer is an electronic machine that can follow instruction to after data in desirable way and to perform at least some operation without human intervention. Computer represent and manipulate text, graphic, symbol, music, database management, and communication to other computer by (network, inter& email system).

II. The components of Computer System

Components of computer system comprise (1) hardware and (2) software. A brief description of each of these components is given in the follow.

1/. Hardware: Multiple computer systems, microcomputer, minicomputer, mainframe together with their peripherals. Computer system components are: central processor(s) memory hierarchy, input and output devices.

2/. Software: System programs and application program.

III. Computer Generation

The since Computer has been changing and has multiple power and as efficiency. This changing has been recognizing of technologies generation that provide a basic for generation of industry. Today there are 5 generation of computer.

1/ First Generation (1942-1955) There are ENIAC, EDVAC, EDSAV. And other computer has design and used "Vacuum tube" it be big size as a lamp now. It needs more power full of cicatrix and increase more heat. Its memory is store in "Magnetic Storage" Primarily magnetic trap and magnetic dump. All data was input to computer by punched-Care is the same to using in Jacquard process. Binary and Assembly degage has been using for program computer. This operation is control by human.

power full of cicatrix

and increase more heat. Its memory is store in "Magnetic Storage" Primarily magnetic trap and magnetic dump. All data was input to computer by punched-Care is the same to using in Jacquard process. Binary and Assembly degage has been using for program computer. This operation is control by human.2/Second Generation (1955-1960): This generation is used "Transistor". It is small than first

generation and have confidence and have speed fast the Vacuum Tube. Transistor has been made in Bell Laps in 1947 by William Shockley J. Borden and W.A Britain and used by the public in 1948 and receive the Nobel sickeningly sweet in 1956. It cheap and need low electric energy and force out heat least than Vacuum Tube. Magnetic tape has using for general. Magnetic Disk has been used for more store data and fast.

3/Third Generation (1960-1975): This generation computer used by Integrated Circuit it have more efficiency and confident than last generation. One Integrated Circuit (ICs) have more electric circuit and small part of Silicon this time is called "Chip". This operation is step forward

with ICs technology for made Microprocessor Chip. In 1960 they used ICs for make CPU. And in 1970 as CPU is prepared by Intel in CPU is called "First Microprocessor 4004" it has 14 data bus and 2300 transistor.

4/Fourth Generation (1975 to now): First ICs have only 10-100 transistor and for Medium Scale Integration (MSI). In Large Scale Integration (LSI) in 1970 this time was input element form 1000-10000 transistors in a chip (Intel 4004 or 8008). In 1979 Very Large-Scale Integration (VLSI) that it's ICs have more 100000 transistors. Intel Company is a producer CPU Microprocessor 8086 has 27000 transistors. In 1993 Pentium Processor have 3.1 million transistor it came computer 90 millions per second (fast than 1500 of 4004).

5/Fifth Generation (In the further): However, the human is not agreeing to begging fifth generation technology, they said stating use computer with Artificial Intelligence. This AI can tell about capability on thinking for human problems. This first arm isn't official that could think in 1990.

CURRICULUM VITAE

Sok noeth

#terk tla District, Sensok , Phnom phenh

Tel: 0884797463

Noengsoknoeth22@gmail.com

PERSONAL DATA

Sex	: Male
Date of birth	: 01 December 2005
Place of birth	: Kampong thom
Nationality	: Cambodian

EDUCATION

2025	: Graduated grad 12 at Reaksmeay Sophorn High school
Present	: Study year 1 at The university of Cambodia in IT

OTHER INFORMATION

COMPUTER	: Word power point & Excel
----------	----------------------------

LANGUAGE

Khmer	: Mother tongue
English	: medium (listening, Writing, Speaking, Reading)

HOBBIES

- Reading Newspaper, Magazine, and Computer book
- Playing football, Swimming, and Sightseeing

#6, St. Tnol bek Village, Sterng sen District, Kampong Thom Province.
Tel: 088 4797 463
Email: Noengsoknoeth22@gmail.com
December 01,2007

ព្រះរាជាណាចក្រកម្ពុជា
ជាតិ សាសនា ព្រះមហាក្សត្រ

ពាក្យស្នើសុំកាន់កាប់ប្រើប្រាស់ដីធ្លី

នាងខ្ញុំ-ខ្ញុំបាទឈ្មោះ.....ភេទ.....អាយុ.....ឆ្នាំសញ្ជាតិ.....
បច្ចុប្បន្នមានទីលំនៅភូមិ.....ឃុំ.....ស្រុក.....ខេត្ត.....
.....។

លោកអភិបាលស្រុក

តាមរយៈ : -លោកមេឃុំ.....

-លោកប្រធានការិយាល័យនគរូបនីយកម្មសំណង់ និង ភូមិបាលស្រុក.....

កម្មវត្ថុ : សំណើសុំកាន់កាប់ដីធ្លី

ដូចមានចែងក្នុងកម្មវត្ថុខាងលើ នាងខ្ញុំ-ខ្ញុំបាទបានកាន់កាប់ប្រើប្រាស់ដី.....

នៅភូមិ.....ឃុំ.....ស្រុក.....

ខេត្ត.....ដែលមានទំហំ.....ចាប់ពីឆ្នាំ.....មកទល់ពេលបច្ចុប្បន្ន។

ដីនេះមានព្រំមានប្រទល់ :

_ខាងជើងទល់នឹង.....

_ខាងត្បូងទល់នឹង.....

_ខាងកើតទល់នឹង.....

_ខាងលិចទល់នឹង.....

អាស្រ័យហេតុនេះ សូមលោកអភិបាលស្រុក

មេត្តាពិនិត្យ និងសម្រេចចេញប័ណ្ណសំគាល់សិទ្ធិកាន់កាប់ ដល់នាងខ្ញុំ-ខ្ញុំបាទដោយអនុគ្រោះ ។ នាងខ្ញុំ-ខ្ញុំបាទ
សូមប្តេជ្ញាថាអនុវត្តតាមរាល់កាតព្វកិច្ច និងបទបញ្ជផ្សេងៗដែលរដ្ឋបានកំណត់។

ធ្វើនៅ.....ថ្ងៃទី.....ខែ.....ឆ្នាំ.....

GROUP 9

1/ នឹង សុខនិត

2/ ម៉ៅ បញ្ញា

3/ មួន បញ្ញា

4/ ជា វីរក្ស័ជន
